

St. Mogues College

Mary Mc Eneaney -Home School Community Liaison

As HSCL Teacher, I will be the link person between home, school, and community, with the aim of developing ways which will empower everyone involved to work together with the best interests of the students in mind.

All parents are welcome to meet with me and I will visit as many homes as is possible throughout the year. The involvement and participation of parents/guardians has been proven to have a huge effect on students' progress in school.

I will communicate through home visits, email, text, phone calls, in-school meetings, website and soon on our new Unique Schools Digital App. This year, as we emerge from the very significant disruption caused by Covid-19, I intend to work closely with students, parents/guardians, teachers, and relevant agencies to improve on student attendance. Every day a student is absent is a lost opportunity for learning.

I will also be conducting a survey of parents in the next 2 weeks, with a view to organising a variety of evening/night classes.

Many Thanks

M. McEneaney
